I received your letter some

time ago but delayed replying to it expecting to hear again from you after you had seen your friend But either you have not seen him or your other engagements have prevented you from giving me information.

I am going to Wilbraham Providence permitting about the first of April. Could I take Bradford in my route without going much out of my way? I believe it is north-west from Boston.

The Lord still blesses our endeavours to serve Him, but this is a sterile region - yet He can make the wilderness to rejoice and blossom as the rose! We must be as nothing in His sight before we can be useful. I feel at this moment much of His Love. Pray for me that He may abide in me and I purely in Him.

Your friend

S. L. Little

24th Brother Lewis will take this and I hope unanswered soon. It is my wish to find some place where God's Spirit prevails - We are enjoying a precious protracted meeting in the Free Will Baptist Church here. The Lord (to use an expression of Brother Mackenzie) the Lord is riding gloriously over that cruel prejudice of colour. I am full of comfort - full of hope - full of the power of these blessed words. The Lord Reigneth. Brother Lewis seems filled with the Holy Spirit.
